Lessons Learned Statement: Use of Contract Clause C.5, Statements of Commitment, has been effective to establish a spirit of cooperation in seeking ways to close the site.

Discussion of Activities: This clause of the contract established the commitment of the Government to support the contractor to find ways to streamline the process and eliminate non-value-added requirements. This clause established a partnering agreement between the Contractor and the Government to work together to close the site.

Analysis (May be incorporated into the Discussion): This clause develop a relationship between the Contractor and the Government to work together to close the site.

Recommended Actions: Suggest incorporation of this contract clause into all closure contracts.
